## Trick of the Month- BACK UP!

Start with your dog on your left side. Use the toy to lure the dog up and over your leg.

When your dog has their two back feet on the KLIMB praise your dog and remove your leg.

Slowly lure your dog off of the KLIMB. We are going to have them walk backwards with the KLIMB as a target.

Lure your dog backward with their toy. Praise and reward with the toy when they walk back to the KLIMB. You just taught your dog to walk backwards!
